

Our beloved sister.

Every time I encounter a family who has suffered a tragic loss, I wonder where they get the strength to go on. Today, May 23rd, we have lost our beloved sister to sudden cardiac death and I am left asking that question to myself.

Dolors Brugada was 50 years old, full of life and energy. Married for the last 30 years, she leaves behind two children, Estanis (Information technologist and webmaster of this site) and Georgina (pediatric cardiologist).

I feel a tremendous emptiness.

I will miss you deeply Teta.

T'estimo,

Ramon.
